

Alkermes plc Reports Second Quarter Fiscal 2013 Financial Results

November 1, 2012

- Company Improves Guidance for Fiscal 2013, Witt\$25 Million Increase in Non-GAAP Net Income Guidance to a Range of \$120 Million to \$140 Million —
- Second Quarter Revenues Grew to 124.0 Million, a 72% Increase Year-Over-Year, Reflecting Growth in Key Products in Diversified Portfolio —
- Second Quarter Non-GAAP Diluted EPS Grew to \$0.17 from \$0.07 for the Same Period in Prior Fiscal Year —

DUBLIN--(BUSINESS WIRE)--Nov. 1, 2012-- <u>Alkermes plc</u> (NASDAQ: ALKS) today reported financial results for its second quarter of fiscal 2013, which ended Sept. 30, 2012, and the company provided improved financial expectations for its fiscal year 2013, which will be the first full fiscal year of the combined company, Alkermes plc (Alkermes), following the completion of the merger of Alkermes, Inc. with Elan Drug Technologies (EDT) on Sept. 16, 2011.

"We reported a very strong quarter in what is shaping up to be a very strong year. The financial power of our commercial product portfolio is becoming even more apparent in our improved guidance and in the recent upgrade of our credit ratings," commented Richard Pops, Chief Executive Officer of Alkermes. "We are building an exciting biopharmaceutical company characterized by a diversified portfolio of products generating growing cash flows and a pipeline of valuable late-stage candidates."

Second Quarter Fiscal 2013 Highlights

- Total revenues for the second quarter of fiscal 2013 increased more than 72% to \$124.0 million, compared to the same period in fiscal 2012, which was attributable to the expansion of the company's commercial product portfolio as a result of the merger and growth from the company's key commercial products. Total revenues of \$72.0 million for the same period in fiscal 2012 included results for Alkermes, Inc. and 14 days of operations of the former EDT business.
- Based on accounting principles generally accepted in the U.S. (GAAP), Alkermes reported a net loss of \$16.7 million, or a
 basic and diluted loss per share of \$0.13, for the second quarter of fiscal 2013. This compared to a GAAP net loss of
 \$22.3 million, or a basic and diluted loss per share of \$0.22, for the same period in fiscal 2012.
- Included in the GAAP net loss for the second quarter of fiscal 2013 was a one-time charge of \$12.1 million related to the refinancing of the company's debt in September 2012. The company successfully refinanced its previously outstanding senior secured term loans and reduced the company's overall debt outstanding. The new term loans have a lower blended interest rate of approximately 4.4% compared to the prior blended interest rate of approximately 7.6%, and the refinancing is expected to result in savings of approximately \$18 million in cash interest annually.
- The company reported non-GAAP¹ net income of \$23.7 million, or non-GAAP diluted earnings per share (EPS) of \$0.17, for the second quarter of fiscal 2013. This compared to non-GAAP net income of \$7.1 million, or a non-GAAP diluted EPS of \$0.07, for the same period in fiscal 2012.

"Our second fiscal quarter results clearly demonstrate the financial strength and growth potential that we envisioned when we created Alkermes plc. Our key commercial product portfolio generated strong revenues this quarter, and we are positioned for record financial results this fiscal year," commented James Frates, Chief Financial Officer of Alkermes. "In September, we updated our expectations for improved non-GAAP net income and free cash flow for fiscal 2013, reflecting the impact of the successful refinancing of the term loans used to fund the merger. Today, we are further improving our financial expectations for fiscal 2013 based on strong operational performance in the first six months, and we now expect Alkermes to generate between \$120 million and \$140 million in non-GAAP net income this fiscal year."

Second Quarter Fiscal 2013 Financial Results

It should be noted that comparative financial information provided below includes 14 days of revenues and operating expenses from the former EDT business during the second quarter of fiscal 2012.

Revenues

- Manufacturing and royalty revenues from the company's long-acting atypical antipsychotic franchise, RISPERDAL [®]
 CONSTA[®] and INVEGA[®] SUSTENNA[®]/XEPLION[®], were \$50.3 million for the second quarter of fiscal 2013, compared to
 \$44.9 million for the same period in fiscal 2012. Worldwide end-market sales of RISPERDAL CONSTA and INVEGA
 SUSTENNA/XEPLION for the second quarter of fiscal 2013 were approximately \$564 million and grew approximately 15%
 compared to the same period in fiscal 2012.
- Manufacturing and royalty revenues from AMPYRA®/FAMPYRA®/ were \$5.0 million for the second quarter of fiscal 2013, compared to \$0.6 million for the same period in fiscal 2012. End-market sales of AMPYRA by Acorda Therapeutics, Inc. in the U.S. for the second quarter of fiscal 2013 were approximately \$69.8 million and grew approximately 28% compared to the same period in fiscal 2012.

- Net sales of VIVITROL® were \$15.2 million for the second quarter of fiscal 2013, compared to \$9.9 million for the same period in fiscal 2012. During the quarter, Alkermes changed its revenue recognition policy for VIVITROL net sales, following the establishment of a product return history. Prior to the second quarter of fiscal 2013, net sales were recognized when the product left the distribution channel. Beginning in the second quarter of fiscal 2013, the company recognizes net sales upon product shipment into the distribution channel. This change in accounting policy resulted in a one-time increase of \$1.7 million in VIVITROL net sales in the second quarter of fiscal 2013. Excluding this adjustment, net sales of VIVITROL were \$13.5 million and grew approximately 36% compared to the same period in fiscal 2012.
- Royalty revenue from BYDUREON® was \$3.3 million for the second quarter of fiscal 2013, compared to \$0.1 million for the same period in fiscal 2012. The royalty revenue for the second quarter was \$3.7 million based on estimated end-market sales of approximately \$46 million, partially offset by a \$0.4 million true-up from the previous quarter.
- Additionally, second quarter fiscal 2013 results included TRICOR® 145 revenues of \$12.5 million and RITALIN LA®/FOCALIN XR® revenues of \$9.1 million.

Costs and Expenses

- Operating expenses for the second quarter of fiscal 2013 were \$118.6 million, which included expenses associated with the advancement of pipeline candidates in later-stage clinical trials and expenses associated with the former EDT business. This compared to operating expenses of \$83.7 million for the same period in fiscal 2012.
- Net interest expense for the second quarter of fiscal 2013 was \$22.4 million, which included a one-time charge of \$12.1 million related to refinancing the company's debt in September 2012. This compared to net interest expense of \$7.2 million for the same period in fiscal 2012.

Balance Sheet

At Sept. 30, 2012, Alkermes recorded cash and total investments of \$208.2 million compared to \$231.9 million at June 30, 2012, and \$246.1 million at March 31, 2012. The reduction in cash in the second quarter was primarily due to the use of approximately \$83 million to reduce total debt outstanding and for expenses associated with the refinancing. At Sept. 30, 2012, the company had total debt outstanding on the balance sheet of \$370.6 million, down from \$444.2 million as of June 30, 2012.

Financial Expectations for Fiscal 2013

Alkermes is improving its financial expectations for fiscal 2013, reflecting increased revenue expectations from the company's product portfolio and decreased expense expectations. These factors are expected to result in an increase in non-GAAP net income of \$25 million to a range of \$120 million to \$140 million. The following outlines Alkermes' financial expectations for the fiscal year ending March 31, 2013.

- Revenues: Alkermes now expects total revenues to range from \$510 million to \$540 million, up from a range of \$490 million to \$530 million. The company continues to expect VIVITROL net sales to range from \$45 million to \$55 million and continues to expect milestone revenues, unrelated to key clinical development candidates, to range from \$20 million to \$30 million.
- Cost of Goods Manufactured: The company now expects cost of goods manufactured to range from \$160 million to \$170 million, down from a range of \$170 million to \$180 million.
- Research and Development (R&D) Expenses: The company now expects R&D expenses to range from \$150 million to \$160 million, down from a range of \$155 million to \$165 million.
- Selling, General and Administrative (SG&A) Expenses: The company continues to expect SG&A expenses to range from \$120 million to \$130 million.
- Amortization of Intangible Assets: The company continues to expect amortization of intangibles to range from \$40 million to \$45 million.
- Net Interest Expense: The company continues to expect net interest expense to range from \$35 million to \$40 million.
- **Net Income Tax Expense:** The company now expects net income tax expense to range from \$5 million to \$10 million, compared to previous expectations of a nominal tax charge in fiscal 2013.
- Share-Based Compensation Expense: The company continues to expect share-based compensation expense, included in the operating expenses above, to range from \$35 million to \$40 million.
- GAAP Net Loss: The company now expects a reduced GAAP net loss to range from break-even to \$15 million, or a basic and diluted loss per share of approximately \$0.00 to \$0.11, based on a weighted average basic and diluted share count of approximately 132 million shares outstanding. This compares to previous expectations of a GAAP net loss in the range of \$20 million to \$40 million, or a basic and diluted loss per share of approximately \$0.15 to \$0.30.
- Capital Expenditures: The company continues to expect capital expenditures to be approximately \$25 million.
- Non-GAAP Net Income: The company now expects non-GAAP net income to range from \$120 million to \$140 million, and non-GAAP diluted EPS to range from \$0.88 to \$1.02, based on a weighted average diluted share count of approximately 137 million shares outstanding. This compares to previous expectations of non-GAAP net income in the range of \$95 million to \$115 million and non-GAAP diluted EPS in the range of \$0.69 to \$0.84.
- Free Cash Flow: The company now expects free cash flow to range from \$95 million to \$115 million, up from a range of \$70 million to \$90 million.

Use of Non-GAAP Financial Measures

We use "non-GAAP net income" as a key indicator of the underlying financial operating performance of Alkermes plc. Non-GAAP net income is not a GAAP measure of performance and is defined as net income or loss plus or minus the non-cash portion of net interest expense and provision for or benefit from income taxes, plus depreciation and amortization of costs, share-based compensation expense, deferred revenue and other nonrecurring items. We feel that non-GAAP net income provides management and investors with a better representation of the ongoing economics of the business and reflects how we manage the business internally.
