Alkermes plc Reports Second Quarter 2022 Financial Results

Second Quarter Revenues of \$276.2 Million Reflect Strong Growth in Proprietary Net Sales
 GAAP Loss per Share of \$0.18 and Non-GAAP Earnings per Share of \$0.06
 Raises Financial Expectations for Full-Year 2022

DUBLIN, July 27, 2022 — Alkermes plc (Nasdaq: ALKS) today reported financial results for the second quarter of 2022 and provided updated financial expectations for full-year 2022.

"In the second quarter, Alkermes continued to execute successfully across the business. VIVITROL® and ARISTADA® both grew year-over-year and sequentially, and LYBALVI® continued on a strong launch trajectory," commented Iain Brown, Chief Financial Officer of Alkermes. "Today, we are pleased to be raising our financial expectations for full-year 2022, primarily due to LYBALVI's launch performance and updated assumptions related to continued royalty revenues on sales of long-acting INVEGA® products outside of the U.S. We believe that we are well positioned to continue to make meaningful progress against our strategic priorities and to drive shareholder value."

Quarter Ended June 30, 2022 Financial Results

Revenues

- Total revenues for the quarter were \$276.2 million, compared to \$303.7 million for the same period in the prior year.
- Net sales of proprietary products for the quarter were \$190.8 million, compared to \$160.8 million for the same period in the prior year.
 - Net sales of VIVITROL were \$96.1 million, compared to \$88.4 million for the same period in the prior year, representing an increase of approximately 9%.
 - Net sales of ARISTADA¹ were \$74.6 million, compared to \$72.4 million for the same period in the prior year, representing an increase of approximately 3%.
 - Net sales of LYBALVI were \$20.1 million, following its commercial launch in October 2021.
- Manufacturing and royalty revenues for the quarter were \$85.3 million, compared to \$142.3 million for the same period in the prior year.
 - Royalty revenues from INVEGA SUSTENNA®/XEPLION®, INVEGA TRINZA®/TREVICTA® and INVEGA
 HAFYERA®/BYANNLI® (the long-acting INVEGA products) were \$26.6 million, compared to \$81.1 million for the same period in the
 prior year. This decrease was driven primarily by Janssen Pharmaceutica N.V.'s (Janssen) partial termination of the license agreement
 related to sales of the long-acting INVEGA products in the United States (U.S.).
 - Manufacturing and royalty revenues from VUMERITY® were \$26.2 million, compared to \$20.3 million for the same period in the prior year.

Costs and Expenses

- Total operating expenses for the quarter were \$310.7 million, compared to \$299.3 million for the same period in the prior year, primarily reflecting increased investment to support the commercial launch of LYBALVI.
 - Cost of Goods Manufactured and Sold were \$58.4 million, compared to \$53.1 million for the same period in the prior year.
 - o Research and Development (R&D) expenses were \$92.9 million, compared to \$97.5 million for the same period in the prior year.
 - Selling, General and Administrative (SG&A) expenses were \$150.4 million, compared to \$139.2 million for the same period in the prior year.

Profitability

- Net loss according to generally accepted accounting principles in the U.S. (GAAP) was \$30.1 million for the quarter, or a basic and diluted GAAP loss per share of \$0.18. This compared to GAAP net income of \$2.4 million, or a basic and diluted GAAP earnings per share of \$0.01, for the same period in the prior year.
- Non-GAAP net income was \$10.5 million for the quarter, or a non-GAAP basic and diluted earnings per share of \$0.06. This compared to non-GAAP net income of \$49.2 million for the quarter, or a non-GAAP basic earnings per share of \$0.31 and a diluted earnings per share of \$0.30, for the same period in the prior year.

Balance Sheet

At June 30, 2022, the company recorded cash, cash equivalents and total investments of \$760.0 million, compared to \$758.7 million at March 31, 2022. The company's total debt outstanding as of June 30, 2022 was \$294.5 million.

"Our second quarter results reflect revenue growth from our proprietary commercial portfolio, highlighted by our continued progress in the launch of LYBALVI, a new oral treatment for schizophrenia and bipolar I disorder," said Richard Pops, Chief Executive Officer of Alkermes. "At the same time, we continued to make progress in our development pipeline, highlighted by the presentation of nemvaleukin ARTISTRY-1 data at the 2022 ASCO annual meeting. As we strive to make a meaningful impact on the lives of patients and families, we will continue to focus on execution against our strategic priorities and our commitment to deliver value for our shareholders."

Financial Expectations for 2022

The following updated financial expectations for 2022 primarily reflect LYBALVI's launch performance to date and the company's current assumption that it will continue to receive royalty payments related to sales of the long-acting INVEGA products outside the U.S. through at least October 2022. All line items are according to GAAP, except as otherwise noted.

Non-GAAP Financial Measures

This press release includes information about certain financial measures that are not prepared in accordance with GAAP, including non-GAAP net income (loss) and non-GAAP basic and diluted earnings (loss) per share. These non-GAAP measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies.

Non-GAAP net income (loss) adjusts for certain one-time and non-cash charges by excluding from GAAP results: share-based compensation expense; amortization; depreciation; non-cash net interest expense; change in the fair value of contingent consideration; certain other one-time or non-cash items; and the income tax effect of these reconciling items.

The company's management and board of directors utilize these non-GAAP financial measures to evaluate the company's performance. The company provides these non-GAAP financial measures of the company's performance to investors because management believes that these non-GAAP financial measures, when viewed with the company's results under GAAP and the accompanying reconciliations, are useful in identifying underlying trends in ongoing operations. However, non-GAAP net income (loss) and non-GAAP basic and diluted earnings (loss) per share are not measures of financial performance under GAAP and, accordingly, should not be considered as alternatives to GAAP measures as indicators of operating performance. Further, non-GAAP net income (loss) and non-GAAP basic and diluted earnings (loss) per share should not be considered measures of the company's liquidity.

A reconciliation of GAAP to non-GAAP financial measures has been provided in the tables included in this press release.

Note Regarding Forward-Looking Statements

Certain statements set forth in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including, but not limited to, statements concerning: the company's expectations concerning its future financial and operating performance, business plans or prospects, including its assumptions regarding royalty payments on sales of the long-acting INVEGA products outside the U.S., its commitment and plans to drive shareholder value, and its ability to execute on its strategic priorities; and the potential therapeutic and commercial value of the company's products. The company cautions that forward-looking statements are inherently uncertain. The forward-looking statements are neither promises nor guarantees and they are necessarily subject to a high degree of uncertainty and risk. Actual performance and results may differ materially from those expressed or implied in the forward-looking statements due to various risks and uncertainties. These risks and uncertainties include, among others: the company's efforts to manage its cost structure may not yield the intended results; the company may not be able to achieve long-term profitability or its profitability targets in a timely manner or at all; the impacts of the ongoing COVID-19 pandemic on the company's business, results of operations or financial condition, including impacts on healthcare systems and on patient and healthcare provider access to the company's marketed products; the unfavorable outcome of arbitration or litigation, including socalled "Paragraph IV" litigation and other patent litigation, or other disputes related to the company's products or products using the company's proprietary technologies, including the arbitration proceedings with Janssen; clinical development activities may not be completed on time or at all; the results of the company's development activities may not be positive, or predictive of final results from such activities, results of future development activities or real-world results; the U.S. Food and Drug Administration (FDA) may not agree with the company's regulatory approval strategies or components of the company's marketing applications; the FDA or regulatory authorities outside the U.S. may make adverse decisions regarding the company's products; the company and its licensees may not be able to continue to successfully commercialize their products; there may be a reduction in payment rate or reimbursement for the company's products or an increase in the company's financial obligations to government payers; the company's products may prove difficult to manufacture, be precluded from commercialization by the proprietary rights of third parties, or have unintended side effects, adverse reactions or incidents of misuse; and those risks and uncertainties described under the heading "Risk Factors" in the company's Annual Report on Form 10-K for the year ended Dec. 31, 2021 and in subsequent filings made by the company with the U.S. Securities and Exchange Commission (SEC), which are available on the SEC's website at www.sec.gov. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the company disclaims any intention or responsibility for updating or revising any forward-looking statements contained in this press release.

Forward-Looking Statements and Non-GAAP Financial Information

Certain statements set forth in this presentation constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including, but not limited to, statements concerning: Alkermes plc's (the "Company") expectations with respect to its future financial, commercial and operating performance, business plans or prospects, including its assumptions regarding the receipt of royalty payments on sales of XEPLION", TREVICTA" and BYANNII outside the U.S. through October 2022; and the potential therapeutic and commercial value of the Company's marketed and development products. The Company cautions that forward-looking statements are inherently uncertain. The forward-looking statements contained in this presentation are neither promises nor guarantees and they are necessarily subject to a high degree of uncertainty and risk. Actual performance and results may differ materially from those expressed or implied in the forward-looking statements due to various risks, assumptions and uncertainties. These risks, assumptions and uncertainties include, among others: the Company may not be able to achieve its targeted financial and profitability metrics in a timely manner or at all; the impacts of the ongoing COVID-19 pandemic and continued efforts to mitigate its spread on the Company's business, results of operations or financial condition; the unfavorable outcome of arbitration or litigation, including the arbitration proceedings with Janssen Pharmaceutica N.V. ("Janssen") and so-called "Paragraph IV" litigation or other patent litigation which may lead to competition from generic drug manufacturers, or other disputes related to the Company's products or products using the Company's proprietary technologies; clinical development activities may not be completed on time or at all; the results of the Company's development activities may not be positive, or predictive of final results from such activities, results of future development activities or real-world results; the U.S. Food and Drug Administration ("FDA") or other regulatory authorities may not agree with the Company's regulatory approval strategies or components of the Company's marketing applications and may make adverse decisions regarding the Company's products; the Company and its licensees may not be able to continue to successfully commercialize their products; there may be a reduction in payment rate or reimbursement for the Company's products or an increase in the Company's financial obligations to government payers; the Company's products may prove difficult to manufacture, be precluded from commercialization by the proprietary rights of third parties, or have unintended side effects, adverse reactions or incidents of misuse; and those risks, assumptions and uncertainties described under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended Dec. 31, 2021 and in subsequent filings made by the Company with the U.S. Securities and Exchange Commission ("SEC"), which are available on the SEC's website at www.sec.gov, and on the Company's website at www.alkermes.com in the 'Investors - SEC filings' section. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company disclaims any intention or responsibility for updating or revising any forward-looking statements contained in this presentation.

Non-GAAP Financial Measures: This presentation includes information about certain financial measures that are not prepared in accordance with generally accepted accounting principles in the U.S. ("GAAP"), including non-GAAP net income (loss) and non-GAAP earnings (loss) per share. The Company provides these non-GAAP financial measures of the Company's performance to investors because management believes that these non-GAAP financial measures, when viewed with the Company's results under GAAP and the accompanying reconciliations, are useful in identifying underlying trends in ongoing operations. These non-GAAP measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies. Reconciliations of non-GAAP financial measures to the most directly comparable GAAP financial measures, to the extent reasonably determinable, can be found in the Appendix of this presentation.

Note Regarding Trademarks: The Company and its affiliates are the owners of various U.S. federal trademark registrations (*) and other trademarks (**), including ARISTADA*, ARISTADA*, ARISTADA* INITIO*, LYBALVI* and VIVITROL*. **In C2/22, royalty revenues from INVEGA SUSTENNA*/XEPLION*, INVEGA TRINZA*/TREVICTA* and INVEGA HAFYERA*/BYANNLI* (the *long-acting INVEGA products*) were \$26.6 million, compared to \$81.1 million in Q2'21. This decrease was driven by Janssen's partial termination of the license agreement related to sales of the long-acting INVEGA products in the U.S., which took effect in February 2022. In April 2022, Alkermes commenced binding arbitration proceedings related to, among other things, Janssen's partial termination of the license agreement and Janssen's royalty and other obligations under the agreement.
